

Welcome to Proud Consulting

We are People & Performance specialists

Our vision is to **see your business flourish**, by connecting your purpose to the people that work to make it a reality.

We know that when people feel connection to a purpose **performance and business results follow**.

Our Mission

We support **small-medium businesses** with your people challenges to enable:

- Rapid growth and scalability**
- Outstanding employee performance and engagement**
- Increased financial return**

Your Challenges

Having come from one of the world's largest HR consultancies, and with 20 years experience in business transformation, **we understand the many different types of people-related challenges businesses face.**

Including how to:

- Build high-performing teams**
- Develop leadership skills**
- Manage business change**
- Manage and build culture**
- Attract top talent**
- Look after employee well-being**

Working with Proud Consulting, we have been looking at how well we lead our organisation.

The experience has been great and the outputs valuable, as Victoria and team provided a great forum for us to be really honest about where we are, the feedback we have for each other and what our functional strategies should be.

We are working hard in our journey to business excellence and Proud Consulting will continue to be an important element in our mix.

Business growth through people

A deep-dive into our business transformation services

➤ Culture Change

Business culture is inextricably linked with all the elements required for business success. Create real congruence between your culture and business objectives and identify how your culture is helping or hindering your strategic outcomes with WayFinder.

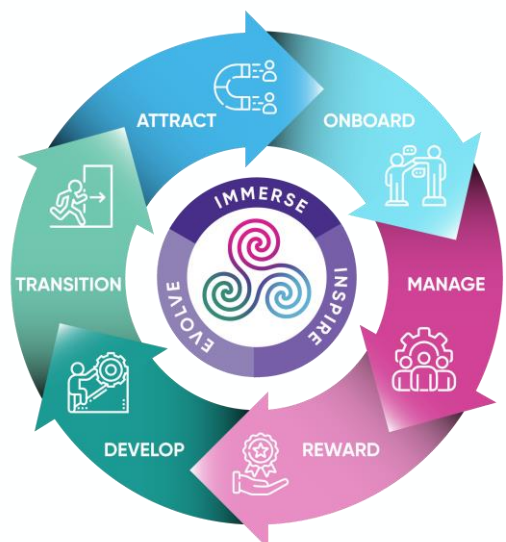

➤ Change Management

Successful businesses are resilient and adaptable in the face of change. Our Change Management Framework makes change easy, through application of an end-to-end, humanistic approach to help you successfully manage your business and people through any challenge.

➤ People Strategy

When you know what your business goals require from an employee perspective, you need to make sure your people solutions align with this. Invest in your people strategy to recruit, manage, and develop people in a way that achieves your strategic goals.

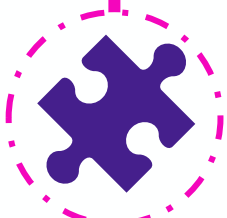

Our Approach

We adopt a truly collaborative approach with all our clients, bringing the experience and know-how you need to create positive change.

We listen to your challenges and aspirations

We never make assumptions. We give you our time and attention to make sure we fully understand your business, where you're heading, and what your challenges and aspirations are. Your goals become our mission from the start.

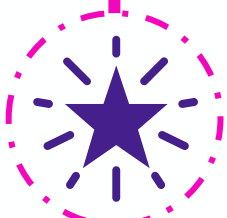

We help you identify what you need

Sometimes it can be difficult to identify precisely what it is that you'd like support with, let alone what solution might be needed. We'll help you think through your business needs, and provide you with options that suit your organisation, giving you the clarity and confidence to make the right decisions.

We want your business to flourish

Our job is to make your life easier, and to help you reach your business goals. **We take our commitments to you very seriously,** and our solutions and advice will always be created with longevity in mind- creating a platform for you to grow from.

We're in it with you for the long-term

We want you to be thrilled with the results we know we can create for you, and we work tirelessly to make sure this is the case. Embedding solutions that relate to employee performance or behaviour often creates challenges- we know because we've been doing it for years! In recognition of this we won't disappear once our work is complete- **we're always at the end of the phone and pride ourselves on being your long-term partner.**

I found the whole WayFinder process invigorating, and have been able to see real value in carrying out the exercise, as the findings delivered multiple strategies around how to grow my business.

I would highly recommend the WayFinder approach to busy business owners.

Thank you Vic & team!
